

Rev. Erin McCabe Bio  
Senior Minister, Unity Village Chapel

There are traditional paths and traditional ministers and then there is Rev. Erin McCabe, or “Rev. E” as she is affectionately known. Following her spirit and heart, Erin’s path has been filled with adventure, music and community always drawn to ancient wisdom, transpersonal psychology and spirituality. Erin found her calling at Unity of Boulder and strumming through Denver’s open mic scene. She released three albums and was ordained a Unity Minister in 2005 becoming the youngest minister active in the movement, taking her musical message on the road to 50 Unity centers coast to coast. She laid down roots in New Jersey for five years as the Senior Minister for the vibrant, growing and diverse center, Unity of Montclair. Honored to answer the call to become the Senior Minister of Unity Village Chapel in 2011, she still leads the congregation and thriving livestreaming community at the historic Unity Worldwide Headquarters.

Erin’s passion for activating spiritual principles and environmental stewardship has guided to her leadership roles in multiple organizations. She serves on the AGNT leadership board and is the founding Director of Campaign for Consciousness, an affirmation movement inspiring spiritually grounded, principle based social action. Erin serves on the New Thought Walden Awards committee, delivered the keynote address at the 2018 Unity People’s Convention and is a presenting delegate to the 2018 Parliament of World Religions with AGNT. Erin credits her life adventures to a spiritual practice informed by mindfulness, non-attachment and boldly following the call within.

Many would be content with this already full life of rich and engaged spirituality, but Erin has always known that there was yet another adventure in her future. In August 2018, she dives into the beautiful new journey of motherhood joining the growing sisterhood of women embracing single motherhood by choice. It was an interesting adventure to get here, but she could not be more delighted to laugh at the newest label attributed of geriatric pregnancy. Her spiritual community is supportive and excited knowing that it takes a village and no doubt that it is by divine appointment they all have exactly that...a Village.
